06 Your advantages with BACHMANN products

14 Our applications

28 Our product portfolio

The needs of the market and ideas from our customers and colleagues inspire us to keep on developing new products.

See for yourself the variety, functionality and high design quality that our products offer.

74 The BACHMANN Group

BACHMANN, founded in 1947, is an owner-managed company with a global presence in the electrical engineering sector.

Based in Stuttgart, the BACHMANN Group develops, manufactures and markets innovative electrical components and systems such as intelligent power distribution units, desk connection panels and assemblies.

Your advantages with BACHMANN products

DESIGN & LOOK

Our finger on the
pulse for you

TECHNOLOGY & FUNCTIONALITY

Versatility for various
application scenarios

INDIVIDUALITY & FLEXIBILITY

Tailored to your requirements

DESIGN & LOOK

Our finger on the pulse for you

When planning and designing our products, we make it a priority to not only keep up with the latest trends, but also to bear classic interior design concepts in mind. We want BACHMANN products to provide visual accents that nevertheless fit perfectly into their surroundings, be they in an office or a home, a living room or a hotel.

Design awards

Power strips and connection panels that boast a classic, timeless design and excellent quality: this is what we are always striving to achieve when we develop and design our products. We attach particular importance to good workmanship, high-quality materials and attractive surfaces. We are particularly proud that this is not only appreciated by our valued customers, but also convinces top-class juries of renowned design awards.

Materials

High-quality materials not only create a visual feature, they turn every touch into a wonderful experience. Aluminium, metal, sheet steel or practical plastic: choose the BACHMANN product that best suits your needs from our huge range.

Surfaces

Do you want something discreet and elegant or would you prefer modern and funky? Our wide selection of surfaces gives our products a unique style. Powder-coated, brushed or painted: in combination with a broad range of colours, BACHMANN products are an eyecatcher in any modern interior design.

TECHNOLOGY & FUNCTIONALITY

Versatility for various application scenarios

BACHMANN products are all about excellent functionality. We make it a key priority to design power strips and connection panels that are as intuitive and convenient as possible to use every single day – whether at home, in a hotel or at the office. What we stand for: high-quality products "Made in Germany".

Connectivity

Connections made easy: individual data, video and audio connection requirements can be met quickly and simply thanks to a number of different function modules. We are continuously expanding our modular range of function modules for smart home, sensor-based and desk sharing applications.

Integration

Whether in furniture, cabinets or desks: BACHMANN connection panels fit perfectly into any modern living and working environment with their high-quality materials and timeless design. Thanks to their simple handling and suitable accessories such as hole saws or device supply cables, installation is technically easy and fast.

International features

Globalisation is bringing us closer together all the time and creating new demands for electrical products to meet. We offer a variety of international sockets to ensure your international success – both personally and professionally. Many BACHMANN products can be ordered in whatever country version you choose.

INDIVIDUALITY & FLEXIBILITY

Tailored to your requirements

Different conditions require different solutions – that's exactly how we want our products to help you. With a huge number of individual configuration options, BACHMANN products can be perfectly tailored to your exact needs – even in very small quantities.

BACHMANN
modular system

BACHMANN products are renowned for their amazing flexibility: smart function modules such as keystones and Custom Modules offer you a whole host of modern connection options (e.g. USB, HDMI) for configuring your power strip however you wish. We are constantly expanding these function modules and they can also be retrofitted or modified after installation – so with BACHMANN products, you are always right up to date when it comes to connectivity.

Customisation even for
very small quantities

So individuality is important to you? That's no problem with BACHMANN products! Choose from a wide range of sockets, technology modules, colours, materials and surfaces to create your very own favourite product. Our plants will be delighted to manufacture BACHMANN products exactly as you wish – even in very small quantities!

A variety of colours

A splash of colour breathes life into any room – create special features with colourful BACHMANN products! Elegant shades like black, white, grey and anthracite, or a sophisticated stainless steel look are ideal for creating a chic atmosphere in an office or conference room. TWIST brings a real pop of colour: this classic from the BACHMANN portfolio is available in almost 200 RAL shades through a one-piece workflow! For even more colour that's exactly to your taste.

Our applications

HOME

Power supply for your home

HOTEL

Stylish comfort

OFFICE

Design and functionality for today and tomorrow

HOME

Your home, your decision: Choose the solutions from our product range that match your idea of how modern energy supply should look and function in your home – stylish and functional.
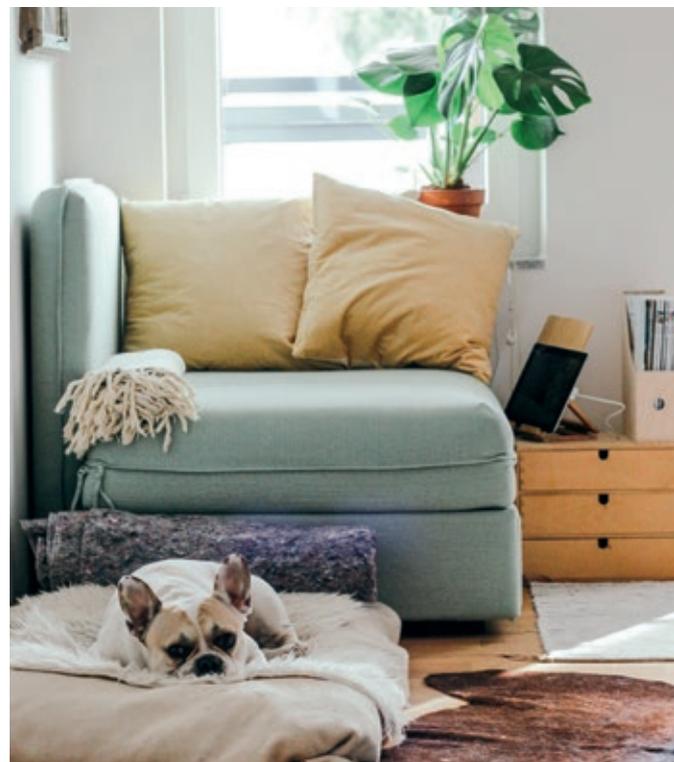

HOME

Power supply for
your home

Home – the place where you can relax with your family. The place where, after a long day at work, you can put your feet up and recharge your batteries. When you come home, all of your everyday worries are left behind.

This makes it even more important that this special place is exactly how you need it to be, whether in the kitchen, the living room or the bathroom. BACHMANN products help you make your dream of a perfect home reality.

HOTEL

Relax or work: BACHMANN products are the perfect solution for power supply in modern, stylish hotels.

HOTEL

Stylish comfort

A hotel: A place where you can dream, relax and let yourself be pampered.
But this is also where new ideas are born, successful business deals
are made and new cooperations forged. For hoteliers, the big question is
always: "What can we do to make our guests feel even more comfortable?"

There are certainly thousands of answers to this question.
One of these: Create an appealing, state-of-the-art environment that
serves the desired purpose.

OFFICE

From a single conference room to an open-plan office, secure and convenient power and data supply is essential for any working environment. BACHMANN offers a wide range of solutions for all kinds of needs.

OFFICE

Design and functionality for today and tomorrow

The world of work is changing. Trends such as desk sharing and clean desk concepts are leading the way into a future in which everyday working life is characterised by modern and innovative forms of cooperation.

Infrastructure needs to keep up with this, particularly power and data supply in buildings, offices and conference spaces. The challenge here is to respond as efficiently as possible to regular restructuring, ground-breaking technologies and new forms of teamwork such as design thinking.

Our product portfolio

Elegant use of space

CASIA

The universal power strip is an efficient solution providing an easy-to-access power connection in living and work environments.

CASIA can be mounted in a corner or on the wall. The cover surface with stainless steel look has a timeless design and is therefore ideally suited to a modern interior. The power strip is available in several versions – for example with a rocker switch or USB double charger.

✓ Quick and flexible in use

✓ For wall or corner mounting

✓ Suitable for subsequent assembly

✓ Timeless design

Integrated functionality

CONEO

CONEO – the quick and easy solution for integrating power and data connections into furniture in an elegant way.

Benefit from the custom modularity you can expect from BACHMANN and combine power supply with our choice of Custom Modules – for flexibility and adaptability, today and in the future.

✓ Quick and easy
to install

✓ Set of items (frame
and power strip)

✓ Flexibility through the
use of Custom Modules

✓ Closed once cables
have been plugged in

Setting a design standard

CONFERENCE

CONFERENCE is a truly refined and discreet solution for individual access to power and data connections.

When not in use, CONFERENCE is integrated into the top of the furniture. When you need power or data, simply press with your finger to release the magnetic catch. The opening flap then swings up. Once you have connected your notebook, projector, microphone etc., you can close the opening flap again. The opposite narrow closing flap adapts to the inserted cables – nothing is squashed and the table stays looking as elegant as before. For use in living and work environments, on conference and training desks or high-grade workstations, for example.

✓ Integrated into the surface of furniture

✓ Simply press with your finger to open

✓ Closed with cables plugged in

✓ Suitable for veneer finishing

BACH
MANN

Integrated functionality

CONI

CONI brings flexibility to the work surface as it enables free, individual access to power.

CONI's minimal mounting depth provides sufficient space, even if installed near the edge. A wide range of standard surfaces also ensures design freedom.

When closed, the surface of the furniture and CONI produce an even surface. If power or data connections are needed, CONI can be opened, the desired plugs plugged in and CONI is then closed again. The integrated brush insert prevents the cables from jamming.

With CONI, you are free to decide how the sockets are configured because the power strip can be quickly replaced without any tools. Integrated functionality and flexibility not just for today, but also for the developments of tomorrow.

✓ Integrated into the furniture

✓ Minimal mounting depth, robust design

✓ Closed with cables plugged in

✓ Power strip can be changed quickly

Design for office and home

CONNECT LINE

The power strip offers a range of different assembly options through mounting brackets. It is rewireable and stands out thanks to its compact design.

With its compact size, the CONNECT LINE power strip is perfectly suited for many different uses in both private households and businesses. The large product range of socket versions offers the perfect solution for every use. The products are also available with optional USB chargers, overvoltage protection and switches. The supplied mounting brackets allow you to install the CONNECT LINE flexibly in 30° stages.

With this combination of compactness, stylish design and versatile product versions, the CONNECT LINE is a functional tool for power supply at home home, the office and beyond.

✓ Versatile components

✓ USB double charger or surge protection

✓ Flexible mounting option

✓ Plug & Play

BACH
MANN

USB Charger

As versatile as your applications

Custom Module

With the easily interchangeable modules, you can create units to meet the individual data, video and audio connection requirements of your customers quickly and simply, no matter if an office environment, but also in rack and electrical installations.

BACHMANN also offers this flexibility for 19" panel installations. The standard Custom Modules facilitate optimal configuration for every media and network connection requirement. Here, socket/socket or screw-terminal connections also provide great simplicity of installation.

When it comes to electrical installations, BACHMANN Custom Modules are another outstanding addition. The small number of components makes the Custom Modules compatible with the current switch ranges of reputable manufacturers. Simple mounting and removal mean that all installations can be quickly adapted to changed requirements or brought up to the current state of the art.

✓ Individual equipment options

✓ Future-proof: Interchangeable modules

✓ Simple and flexible installation

Versatility with style

DESK 1

DESK is the ideal solution for data, media and power management wherever these connections need to be flexible.

Typical situations might include meeting rooms, home offices or desk-sharing environments. The modular construction of DESK enables it to be factory-configured with exactly the communications and power connections required for specific applications. For the power supply, there is therefore a free choice of either the flexible Wieland connector system or permanent connections.

The data connections are fitted with adapters as standard, but can likewise also be fixed connections.

✓ Flexibility of use

✓ Fixed or free-standing

✓ Individually equipped

BACH
MANN

Design meets technology

DESK 2

DESK 2 is a power strip that can be equipped with various communication modules. It has been designed for flexible use in the office, meeting rooms, home offices or desk-sharing environments. But DESK 2 is great in living spaces, too.

The power strip is made from aluminium and is available in various colours. The connections are screwed onto the standardised module windows and can be easily converted.

Form and function in a duet

DUE

DUE is the ideal power strip for the kitchen, office and other areas: It guarantees an elegant power supply.

With its interchangeable covers, it can be colour-coordinated to its surroundings or create accents as desired, even after installation.

The split cover allows DUE to be slid open as required, with a design that looks equally elegant when in use. The low mounting depth of approximately 45mm allows it to be compactly integrated into kitchen worktops, or the wall, or installed above drawers.

ARCHITEKTUR⁺TECH®

✓ Covers available in different colours

✓ Space-saving design even when open

✓ Supplied with installation template

✓ Low mounting depth

The elevator is powered straight away

ELEVATOR

ELEVATOR fits perfectly in any setting. With a diameter of 79mm, ELEVATOR is ideal for integrating power and data connections in tiny spaces. Simply press down with your finger to raise and lower ELEVATOR.

Installation is incredibly simple. ELEVATOR is placed in a cut-out 79mm in diameter and secured to the furniture using a lock ring.

✓ Press down with your finger to raise

✓ Quick and easy to install

✓ Suitable for subsequent assembly

✓ Suitable for standard 79mm hole

Modularity and minimalism combined

KAPSA

KAPSA's classic, reduced forms make it a power strip that is both design-orientated and space-saving.

KAPSA was designed for the kitchen, office and many other areas in living and work environments. The lid – which can be flipped open and changed – provides protection against external influences and is available in several versions. Modular equipment options make flexible configuration in several lengths possible. Installation from above guarantees simple mounting – also optionally available for subsequent mounting. A low mounting depth of approx. 45mm and a solid design characterise KAPSA and confirm that: less is more.

✓ Available in several different lengths

✓ Suitable for subsequent assembly

✓ Interchangeable lid

✓ Modular equipment options
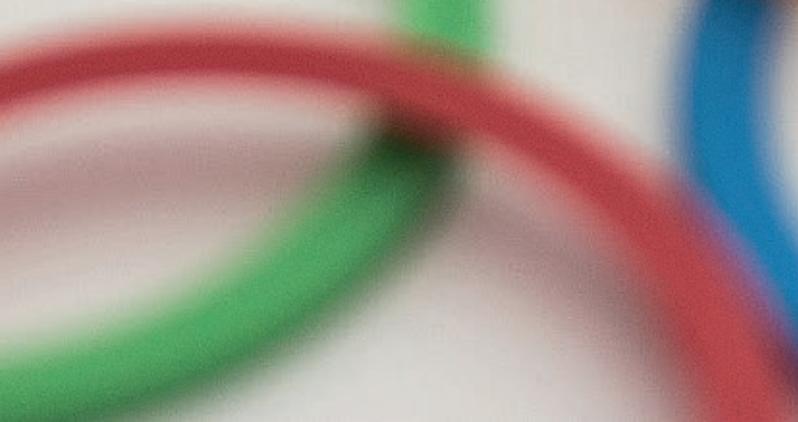

The insert for greater functionality

LOOP IN

You don't find cable glands interesting? Then you don't know about LOOP IN yet! This smart function insert provides smart functionalities.

LOOP IN, with its modern and elegant design, is fast and easy to mount and, in addition to the practical cable gland function for different types of cables, it includes a socket outlet with earthing contact. Just insert, lock … and you're done!

The insert is perfect for any location where you require power but want to avoid a tangle of cables. LOOP IN can be used in conjunction with LOOP ROUND to achieve a higher-quality metal finish.

✓ Can be installed in the side of furniture

✓ Easy mounting and flexible replacement

✓ For feeding through up to 4 cables

✓ Suitable for standard 80 mm bores

USB Charger

Design in a nutshell

PIX

The stylish PIX range is a collection of delicate, round sockets and connection units that can be used in many different ways.

Whether in the office, kitchen, public lounges or at home: When used alone or in your chosen combination, the decorative rings are available in various colours and can be changed over. An ingenious, swivel-mounted lid, providing protection from dust and dirt, is available as an option for PIX and can also be retrofitted. With its round, flat shape and minimalist appearance, the PIX meets design requirements exactly where you need it.

✓ Interchangeable, coloured rings

✓ Small mounting diameter of 56mm

✓ Optionally with swivel-mounted lid

✓ Subsequent mounting possible

Compact and efficient

POWER FRAME

POWER FRAME is the compact solution for integrated and easily accessible power and data connections for workstations.

Combining compact dimensions with high-quality timeless design, POWER FRAME opens up virtually unlimited application options that go far beyond the realm of office workstations. It is also perfect for sales showrooms and display windows, as well as trade fair and demonstration stands. In short, wherever secure and rapid connections are the order of the day.

Your chosen power strip simply plugs into the mounting frame from below without tools – a stroke of perfection. POWER FRAME is the ideal solution when you need compactness and efficiency.

✓ Suitable for subsequent assembly

✓ Versatile in application

✓ Timeless design

✓ Compact dimensions

Who'd have thought power could be so elegant?

POWER FRAME COVER

POWER FRAME COVER is the elegant and compact power and data supply solution.

POWER FRAME COVER has an attractive aluminium cover, designed for stylish living and work environments, which also protects power and data connections from dust and dirt.

When the lid is fully open, both sides offer unimpeded access.

✓ Accessible from arious sides

✓ Protection against dirt and dust

✓ Versatile combinations

✓ Rapid installation
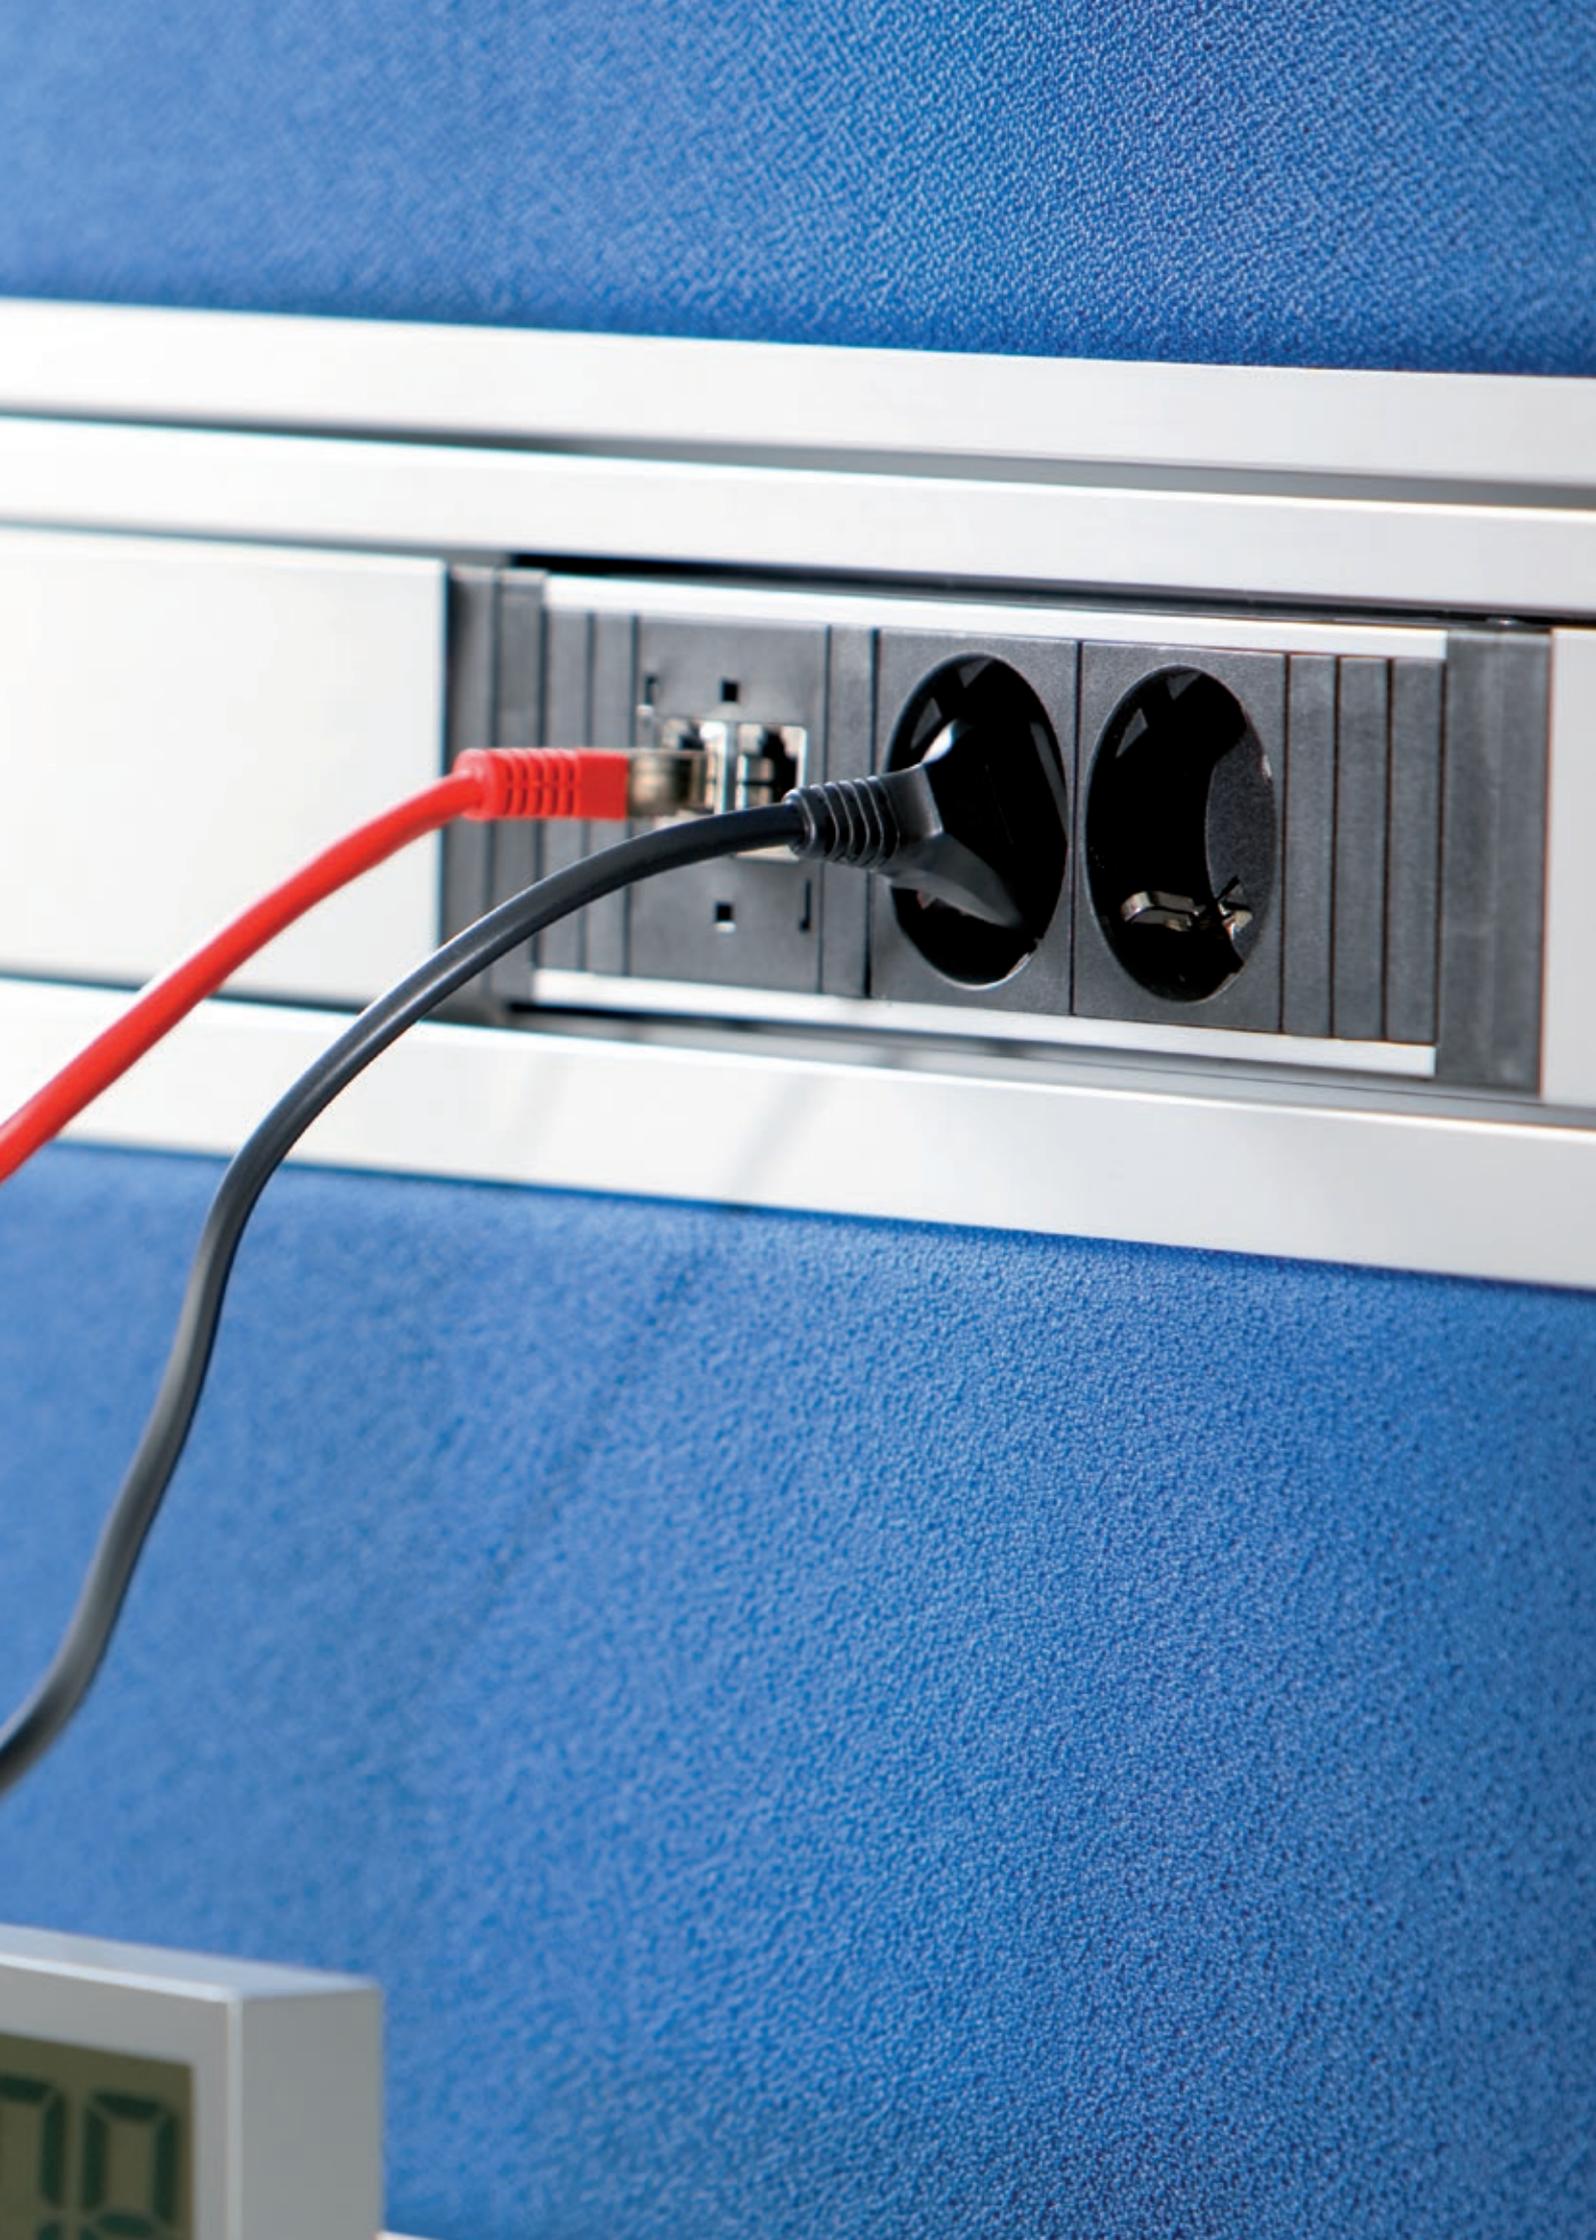

Image and sound for everyone

Rextron HDBaseT

The Plug & Play solution for meeting points and meeting rooms.

Share information from up to 4 devices (laptops) at the touch of a button. The buttons are already integrated into the relevant Custom Modules.

The signals from the changeover switch to the display or projector are either transferred via HDBaseT or as original HDMI signals.

✓ Simple cabling

✓ Transmission of image and sound signals

✓ Plug & Play – no programming needed

✓ Resolution up to UHD (4K) possible

Fit for the future – step by step

STEP

STEP embodies the principle of modularity with absolute consistency. The system is thus ideal for the flexible delivery of power and data to workstations, in partition systems, raised floors and other connection types.

The modular design of STEP power strips offers virtually endless possibilities: from simple electricity supply sets through to power strips with integrated data connections, RCDs/MCBs, surge protection, media technology connections and much more.

STEP is equipped with Wieland GST18i3 as standard for the power supply and can therefore be supplied with a variety of cable lengths. Other plug connector systems can also be supplied on request.

✓ Modularity

✓ Versatile applications

✓ Installation connection system

✓ Functional efficiency

Perfect elegance

TOP FRAME

TOP FRAME is the new power and data supply solution for living and work environments, such as conference facilities.

The balanced geometry of TOP FRAME fits elegantly into the surface of the furniture, so tables can even be fitted with high-quality veneers. The cover can be completely recessed, allowing power and data to be accessed from various sides conveniently.

TOP FRAME is also elegantly simple to open: press down with your finger to simply and silently open TOP FRAME and close it again.

✓ Installed flush with the surface

✓ Integrated into the furniture surface

✓ Silent opening

✓ Access from any side

Power outside the box

TWIST

TWIST is a power strip for living and work environments such as the office, lounge or kitchen. With its compact design and low mounting depth, it is easily integrated into desks or kitchen worktops. Because the power cable is routed close to the housing, the mounting depth is only around 40mm, so the unit can be easily installed above a drawer. With various surfaces and colours, TWIST blends easily into both modern and organic interiors.

An ingenious fastening mechanism: after use, simply rotate the cover and the sockets disappear underneath it.

The UNIVERSAL solution

UNIVERSAL

The UNIVERSAL power strip gives you everything its name would suggest: a sturdy, reliable source for power, data and media connections. Its discreet design is ideal for desks and conference tables, where the top priority is to have access to a wide range of different functions that are easy to use.

UNIVERSAL provides outstanding flexibility through the use of BACHMANN Custom Modules, which offer a variety of connections and can be subsequently replaced at any time. Metal retaining brackets mean UNIVERSAL can be installed in various positions and at various angles.

- ✓ Complete unit for power, data and media connections
- ✓ Outstanding flexibility
- ✓ Fixing via metal retaining brackets
- ✓ Ideally suited to use in table ducts

Visual harmony

VENID

As part of a modern work and conference environment, the desk connection panel VENID offers both exceptional design and high functionality.

The original tabletop material can be integrated quickly and easily into the mounting frame, so the tabletop and connection panel form a harmonious unit.

Perfectly integrated into the surface, VENID not only looks elegant but also offers a practical benefit: used cables can be stowed away conveniently in the tray. The cover, which can be folded open in either direction, is easy to operate and leaves space for the cables to be routed at the sides. Two power strips can be integrated into the VENID tray and equipped individually.

- ✓ Harmonious surface
- ✓ Can be operated from either side
- ✓ Practical benefit of cable storage
- ✓ Flexible equipment options

Comfortable, wireless charging

WIRELESS CHARGER Fs80

No plugs, no irritating cables: the WIRELESS CHARGER Fs 80 enables all QI-enabled mobile devices to be charged wirelessly.

The WIRELESS CHARGER Fs80 is a design-orientated product for inductive power transmission that suits any furniture. The charger contains an induction coil and features a fast-charge function. It is compatible with common Qi-enabled devices and can charge them with 5 V as standard. Fast charging (9 V) is also possible – in conjunction with the "Quick Charger" power supply unit (934.900).

The product's high-quality aluminium surface in black (similar to RAL9005) fits into any surroundings. The charger can be installed completely tool-free in any surface with an 80mm hole and a maximum desktop thickness of 50mm.

✓ Fast charging (9 V) possible

✓ High-quality aluminium housing

✓ Over-charging protection

✓ Simple, tool-free installation

The BACHMANN Group

Innovative, individual, international

BACHMANN, founded in 1947, is an owner-managed company with a global presence in the electrical engineering sector. Based in Stuttgart, the BACHMANN Group develops, produces and markets innovative electrical components and systems such as intelligent power distribution units, desk connection panels and assemblies.

Alongside the production expertise at our production and development centres in Germany, Romania and China, BACHMANN has around 30 sales and partner companies worldwide.
